

Game Fair in Lithuania

Every autumn and spring students of our school enjoy " Game Fair " attractions. There are 5-10 stops with different games: games in pairs, groups, individual games, games with stilts, hoops, ropes, balls, sand bags and tins coloured by themselves or other equipment. Just be creative organising the games. Twice we had European game fair, then we played the games popular in our project partners schools. Every student gets the card with the list of the games. They have to visit every „station“, to play the game and get a sticker for it.
